

EMPLOYMENT STATISTICS

HCLAS - School of
Education -Graduate

HOFSTRA
UNIVERSITY®

GRADUATE OUTCOMES 2021-2022

HCLAS - SCHOOL OF EDUCATION

91%

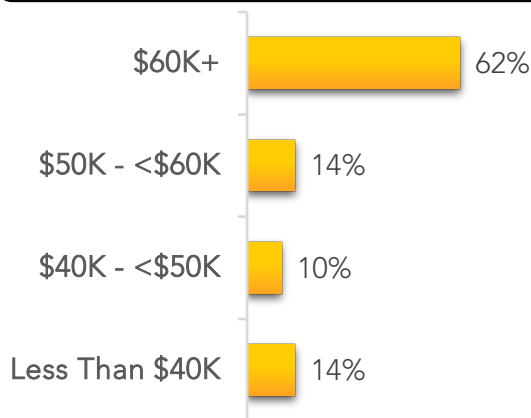

of the 2021-2022 degree recipients are employed, attending graduate school, or both

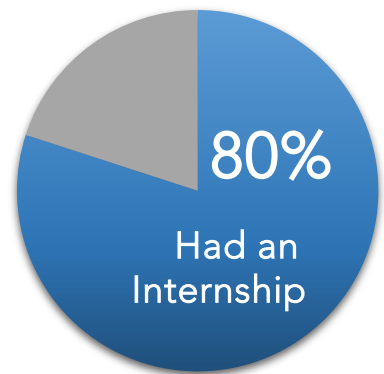

When Did They Accept?

Average Salary: \$64K

Avg. # Internships: 2.56

Results are based on individuals surveyed in the 21-22 Cap & Gown Survey, LinkedIn, National Student Clearinghouse, and Hofstra enrollment. Internship data is based on self-reported data from the 22-23 Cap & Gown Graduate Surveys

By Program:

Franklin Early Childhood Center	Roslyn School District
Freeport School District	Saudi Arabia Ministry Of Education
Friends Academy	SCOPE Education Services
Great Neck School District	Smithtown Central School District
Hampton Bays School District	St. Anthony's High School
High School of Applied Communication	St. Francis Preparatory School
Hofstra University	Stony Brook University
Icahn Charter School	Success Academy Charter School
Independent Support Services, Inc.	Syosset School District
Island Trees School District	Talent Unlimited High School
Jericho School District	The Center for Developmental Disabilities
Learn and Explore Academy	The Learning Circle
Levittown School District	Touro College
Life-Skills Preschool	Uniondale School District
Long Beach School District	Variety Child Learning Center
Manhasset School District	West Islip School District
Manhattan Center for Science and Mathematics	Westbury School District

About The Outcomes Data

Alumni outcomes data is based on the results of Hofstra's annual Alumni Outcomes Survey and other reliable sources. LinkedIn was used to track employment information on survey non-respondents and National Student Clearinghouse and Hofstra enrollment files were used to track graduate school enrollment for all of our students.

The data collection period for the 2021-2022 Hofstra alumni outcomes was between December 2021 and May 2023. Of the 1,188 graduate students who graduated between August 2021 and May 2022, data was collected via surveys and other reliable sources resulting in knowledge about the outcomes for 79% of the 21-22 graduate alumni. For the Hofstra School of Education, the knowledge rate for 21-22 graduate alumni was 61%.

This data uses the best practices recommended by the National Association of Colleges and Employers' (NACE) First Destination Survey Standards in January 2014. In accordance with those practices, this data uses multiple data sources to understand our graduates' outcomes. The NACE recommended threshold knowledge rate is 65%.

The average salary reported is determined by the level at which data may be deemed reliable. Salary data is self-reported voluntarily by students and are based upon an 78% response rate for full-time employed graduate survey respondents. For the Hofstra School Education, the salary response rate was 83%.

Salary figures vary from year-to-year based upon a number of factors, including, but not limited to, market conditions as well as the number of graduates reporting salary information to us. In addition, please note that these figures are based solely on information that is self-reported to us by our graduates, and the salary data provided is based on the accuracy and completeness of the information provided by our graduates to us. Salary figures only include annual base salary. They do not include bonus, commission or any other guaranteed compensation.

All data must meet a test of data integrity. The outcomes data reported is determined by the level at which data may be deemed reliable. This data is largely based on the responses of graduates completing Hofstra surveys, not the total number of graduates, and may not be representative of the total graduating population. The economy is constantly changing, and outcomes for past classes are not an accurate predictor of outcomes for future classes. In addition, a degree from Hofstra or any other school is not a guarantee of employment in any field.

Some tables may not sum to 100% due to rounding.
