Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- [Academic Major](#)

THIS PAGE INCLUDES:

- >> [Teachers Prepared by Subject Area](#)
- >> [Teachers Prepared by Academic Major](#)

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2018-19.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

What are CIP Codes?

No teachers prepared in academic year 2018-19

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2018-19. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

[What are CIP Codes?](#)

Do participants earn a degree upon completion of the program?

- Yes
 No

No teachers prepared in academic year 2018-19

Program Assurances

THIS PAGE INCLUDES:

>> [Program Assurances](#)

Respond to the following assurances. Note: Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. ([§205\(a\)\(1\)\(A\)\(iii\)](#); [§206\(b\)](#))

Program Assurances

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- Yes
 No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- Yes
 No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- Yes
 No
 Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- Yes
 No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- Yes
 No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- Yes
 No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- Yes
 No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

Clinical placements are tied to coursework that prepares candidates to create culturally relevant learning experiences. Coursework throughout the program emphasizes the connections and interdependence of teaching practice with social, cultural, philosophical and historical influence. Topics include multicultural, inclusion, gender and literacy issues; funding, school choice, charter schools, the middle school philosophy; and the development of curriculum and pedagogies appropriate for inner city, suburban, private and public schools. Ways in which writing, as well as reading and other language processes, can become tools with which adolescents and young adults negotiate socially imposed linguistic borders based on class, race, ethnicity, previous educational attainment and/or expectation, peer regard, gender, country of origin, etc are examined. Our expectation is that candidates will demonstrate the ability to differentiate instruction for all learners including limited English proficient learners, students from low income families and students with disabilities. All prospective general education teachers are required to complete coursework and clinical placements in a special education setting. Coursework provides the general education teacher with current, effective techniques in inclusive education for children and

adolescents within the full range of exceptionalities across all academic levels.

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact Westat's Title II Support Center and your testing company representative.

Low-Performing

1. Is your teacher preparation program currently approved or accredited?

- Yes
- No

If yes, please specify the organization(s) that approved or accredited your program:

- State
- CAEP
- AAQEP
- Other specify:

Middle States/Accredited by TEAC, now member of AAQEP

2. Is your teacher preparation program currently under a designation as "low-performing" by the state?

- Yes
- No

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. ([§205\(a\)\(1\)\(F\)](#))

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction

Yes
 No

- b. use technology effectively to collect data to improve teaching and learning

Yes
 No

- c. use technology effectively to manage data to improve teaching and learning

Yes
 No

- d. use technology effectively to analyze data to improve teaching and learning

Yes
 No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

Department of Teaching, Learning and Technology (TLT): The TLT department prepares teachers to integrate technology effectively into curricula and instruction in a variety of ways. Faculty model the use of various types of technology in the classroom during different courses including the use of such methods as Smart Board or Podcasting. Students then have the opportunity to use the technology in activities and presentations in the classroom. Students do demonstration lessons using a variety of technologies. For example, students will learn how to design memes and brief videos advertising political campaigns from the past using a variety of technologies and programs. For presentations they must use a form of technology like Power Point to make their presentation to their peers. Faculty use the National Library of Virtual Images to make concepts come alive. The principles of universal design are included in all of our classes. Our child development courses focus on the development of the child as an individual and the need to interact with and create the appropriate environment for the student as an individual. In method courses faculty have students create lessons that include differentiated instruction. The goal for these lessons is to meet the needs of the individual learner. These lessons will have a variety of tasks that students can choose from that will demonstrate what they have learned. Along with creating a classroom environment that suits the learning styles of students, teachers include choice as an important aspect of their lesson design.

Teacher Training

Provide the following information about your teacher preparation program.

(§205(a)(1)(G))

Teacher Training

1. Provide a description of the activities that prepare general education teachers to:

a. Teach students with disabilities effectively

The primary goal of our program is to provide a comprehensive educational program for all students. This requires careful consideration because we want to design effective curriculum that helps to avoid classifying a child. Our goal is to ensure that all students have effective instruction. Therefore, Response to Intervention (RTI) is examined in our instructional program. This model moves from remediation to intervention. We want our students to understand how a child is responding to strategies and instruction and when intervention is needed. Our program helps teachers recognize what techniques can be used to support the struggling learner. The goal is always assessment to provide appropriate instruction.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Our goal is to ensure that all students have effective instruction. Therefore, Response to Intervention (RTI) is examined in our instructional program. This model moves from remediation to intervention. We want our students to understand how a child is responding to strategies and instruction and when intervention is needed. Our program helps teachers recognize what techniques can be used to support the struggling learner. The goal is always assessment to provide appropriate instruction.

c. Effectively teach students who are limited English proficient.

Our program provides for teaching students with limited English learners through the use of differentiated instruction. Differentiated instruction in our program refers to differentiating the content, process, and/or product. This is achieved by assessment of students and the use of flexible grouping which reflects students' readiness, interest and learning profile. In addition, centers are used to further facilitate differentiated activities for all students. We have a graduate program devoted to supporting student ELL learners. Additionally, our curriculum is designed to support all students' cultural differences. Our literature is multicultural. The point of view cuts across all subject areas, and addresses the histories and experiences of people who have been left out established (or traditional) curricula. Its purpose is to help us deal equitably with all students, regardless of their cultural and racial backgrounds that reflect the entirety of human experience. This perspective helps us more deeply understand the nature of power relationships and persistent inequalities both within K-12 education and the larger society.

2. Does your program prepare special education teachers?

- Yes
 No

If yes, provide a description of the activities that prepare *special education teachers* to:

a. Teach students with disabilities effectively

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities*

c. Effectively teach students who are limited English proficient.

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

(1) The teacher education and educational leadership programs of the School of Education are accredited under the Teacher Education Accreditation Council (TEAC) Quality Principles through the CAEP Accreditation System, for a period of seven years, from October 28, 2014 to October 28, 2021. In spring 2019 the School of Education (SOE) switched accrediting agencies and is now a member of the Association for Advancing Quality in Educator Preparation (AAQEP). Due to this change, the next site visit for the SOE will be in the spring of 2024. Hofstra University is currently pursuing accreditation of its educator preparation programs by AAQEP. Pursuant to §52.21 of the Regulations of the Commissioner of Education, the educator preparation programs offered by Hofstra University will be continuously accredited for purposes of meeting the New York State requirement that all such programs maintain continuous accreditation. (2) November 20, 2014, the Middle States Commission on Higher Education accepted our Periodic Review Report (PRR), reaffirmed Hofstra's accreditation, and commended the University on the quality of the Periodic Review Report and process. In the Report to the Faculty, Administration, Trustees, Students of Hofstra University, dated 7/29/2014, the PRR review team indicated: "This Periodic Review Report is exceptional, but even more importantly, presents a University that is exemplary in its compliance with the Standards of Excellence. In particular, the reviewers commend Hofstra's accomplishments in assessment; given that assessment is the most common source of recommendations and follow-up obligations for Universities under review, we suggest that Middle States officially recognize Hofstra's assessment program as exemplary for the benefit of other institutions seeking to calibrate their assessment activity." Further, specifically regarding the University's assessment processes and results: "Hofstra's assessment operation demonstrates both breadth and depth. It boasts two cooperating offices to manage assessment, an Office of Accreditation and Outcomes Assessment and an Office of Institutional Research and Assessment, but also shows that an assessment sensibility pervades all academic units and administrative functions. Extended examples include an assessment in Oral Communication that started with a curricular map, proceeded to a resolution by faculty to enhance the range of courses exposing students to oral communication, and a validating follow-up assessment. Additional examples in Chemistry, Psychology, Languages, Writing, Information Literacy, and other areas included strong assessment programs in multiple areas that represent frequent challenges, and a variety of methodologies, from curricular maps to the CLA to embedded questions to national disciplinary tests." The reviewers found both the report and the culture of assessment being reported on to be genuinely exemplary, and we commend Hofstra for its excellence in this challenging area. Given the high percentage of accredited colleges that receive recommendations about assessment, we believe that Middle States should consider identifying colleges that have an assessment program worth modeling. Hofstra's program would be an important selection for such identification."
