# Connect with the care that's right for you

The Find Care tool helps you search for doctor and compare costs

Choosing a provider you trust is important — and choosing one in your plan's network can help keep your costs down. Finding high-quality, cost-effective care is simple when you use the Find Care tool on the Sydney Health mobile app or **Anthem.com.**
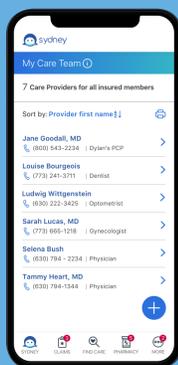

How to use Find Care

The Find Care tool brings together details about doctors, hospitals, labs, and healthcare facilities in your plan's network. You can easily compare information such as costs, location, and office hours. You can:

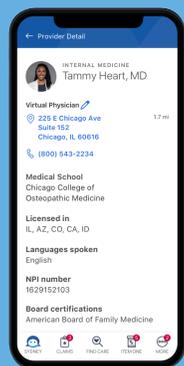

1
Search for providers and facilities in your plan's network by name, specialty, or procedure.

2
Customize the list of providers you see in your search based on factors that are most important to you, such as languages spoken, affiliated hospitals, and location.

3
Review details about doctors such as their specialties, gender, educational background, and contact information.

4
Choose a doctor from the list to review their patient ratings and compare costs for services.
